

PHOTOGRAPHY CONSENT FORM

Thank you for agreeing to photography for use on the Royal College of Emergency Medicine's eLearning website: RCEMLearning. In line with GDPR regulations you have the right to control the use of your photographs and digital images. This consent limits their use to the purpose specified, i.e. publication on RCEMLearning. NO personal details about you (such as your name or date of birth) will appear. If it should be desired to use your photograph(s) in any other way - for example in a medical textbook, journal or a different website, then the clinician obtaining the photograph must seek your specific permission to do so.

I confirm that I have explained the use to which the images will be put. I will take the photographs in a dignified manner. They will be stored securely.

Signature of clinician taking
photograph.....

Name of clinician (please
print).....

Date.....

PATIENT CONSENT

In view of the explanation given to me by
Dr/Mr/Miss/Mrs.....

- I consent to photographs being published on RCEMLearning

Signature of patient/parent/guardian
.....

Relationship if not patient

Date.....

Give one copy to the patient and keep one copy for RCEMLearning records.

RCEMLearning Overview

RCEMLearning is the Royal College of Emergency Medicine's (RCEM) elearning platform. We aim to be a leading Emergency Medicine elearning site which delivers high quality resources to its members and the broader international elearning community.

RCEMLearning is simultaneously committed to preserving benefits for RCEM members and promoting elearning predicated on open access principles. The majority of content is open access (content in the Exams and CPD section is for RCEM members only), and the site includes a section devoted to the production and dissemination of FOAMed materials. RCEMLearning is registered under a Creative Commons license to encourage (re)use of resources for educational purposes.
